Presence and Masterful Use Of Self:

Awareness Intelligence Skills

With Dorothy E. Siminovitch, PHD, MCC
Author of A Gestalt Coaching Primer: The Path Toward Awareness IQ

➤ (4 Days x 5.5 hours per day)

Masterful use of self reveals personal and professional mastery. We need to be aware of what we evoke through our personal presence, and be responsible for what we professionally provoke through the deliberate use of our presence. Through relationship with others, we discover and experience our impact and our ability to make a difference. In our volatile world, presence and how to use our presence effectively to influence positive outcomes for others has proven to be the most stable and most valuable “high-tech” soft skill. Such awareness and leveraging of presence requires the both skill and practice that over time we have identified as “Awareness Intelligence”. It is the capacity to be able to be aware and responsive to what matters that describes awareness intelligence.

Drawing from Gestalt foundations, this workshop offers a highly experiential, relational, and feedback-rich learning experience. Workshop participants practice what they are learning in the observant, supportive company of equally committed peers and a master mentor Gestalt practitioner.

Workshop “take-aways”:

- * An increased awareness of your distinctive presence
- * Opportunities to explore your impact and effectiveness as intervener at multiple levels of system
- * Identification of your access to both relational and intentional action
- * Developmental strategies to increase awareness intelligence mastery

ICF CCEUs: 20 (18 CC CEU | 2 RD)

STANDARD FEE: \$1500 USD

EARLY BIRD RATE (until 30 days before workshop): \$1250 USD
